

WORX ALL-NATURAL HANDS CLEANER

Economic use for each day

With almost 21 years of proven performance, **WORX All-Natural Hand Cleaner** has finally had a facelift! The same great product with a sleeker look and easier to follow packaging. The number of hand washes is clearly labelled on each bottle, so it's easier than ever to determine which size is right for you, and our updated washing instructions help reduce wastage and ensure you experience all the value of our powder.

WORX All-Natural Hand Cleaner is the original environmentally-certified industrial hand cleaner, and it remains an industry leader due to its *superior cleaning power*, *safety on hands and on the environment*, and *superior value* when compared against other products. Powerful cleaning. SkinPROTECT Technology to keep your hands healthy and soft. Environmental responsibility. Plus, our customers save up to 40% per year on their hand cleaner expenses.

Everything you need to know about it is in the name: All-Natural. Hand Cleaner. And is it effective? Well...

We call it WORX... Because it does.

What is "SkinPROTECT Technology"?

WORX Environmental Products knows that industrial cleaning products can be very tough on the skin. All of our products are formulated to be *safer* on your hands than our competition, while still maintaining exceptional cleaning power. This fundamental aspect of our products is known as SkinPROTECT Technology. Customers shouldn't have to sacrifice skin or hand safety to use a powerful product.

What does "Certified for the Environment" mean?

Our WORX All-Natural Hand Cleaner holds third-party certification as an environmentally-responsible product.

WORX™ All-Natural Hand Cleaner is the first industrial hand cleaner certified to use the internationally recognized EcoLogo (Environmental Choice) and Green Seal™ symbols for environmental excellence. To be certified, products must perform as well or better than any other product in their category, and be more environmentally responsible than the competition. Rigorous testing ensures that **WORX™ All-Natural Hand Cleaner** products comply with strict criteria for biodegradability, non-toxicity to mammals, fish or any other animals in the ecological chain. The EcoLogo and Green Seal symbols certify **WORX™** hand cleaner, and other select nature based products, have been tried, tested, and proven. Customers can be confident they have made the right choice for today and tomorrow by purchasing an effective, safe, environmentally responsible product.

What does "Certified for the Environment" mean?

This fundamental aspect of our products is known as SkinPROTECT Technology. Customers shouldn't have to sacrifice skin or hand safety to use a powerful product.

What does "Green Chemistry" mean?

Right from the very start of our research and development process, we incorporate environmental responsibility into our work. All of our products are formulated to meet or exceed existing international environmental standards for their category. While the products are not currently third-party certified, we are confident that we will choose to certify them in the future, once our customers have had a chance to prove the cleaning performance and hand safety for themselves!
